

TF311 White Smoked Oak

Grandé

Our versatile Grandé range can be installed directly over existing floor joists - the 20mm thickness enables it to be used as a load bearing floor without floor boards underneath, meaning it is perfect for refurbishment and renovation projects.

Grandé's wide boards open up smaller spaces like bedrooms, adding a sense of luxury and sophistication with their light to dark tones. They're durable too, as they are pre-coated with a hardwearing UV oil as standard.

Plank size: 20 x 220 x 2200mm Pack size: 1.93m²
